

Important Information

About 2006 Caltrans Construction Projects

The California Department of Transportation (Caltrans) will be conducting several storm damage repair projects in northwest Sonoma County. Five projects are located along Route 116 between Guerneville and the coast, with two more located on Route 1 between Jenner and Bodega Bay. (See below for more information on project locations.) Due to the availability of project funding and environmental permit restrictions, all projects need to be completed this year.

Site	Route	Location	Description
1	116	1.7 miles east of Monte Rio	Rebuild unstable slope on river side of highway
2	116	0.5 miles east of Monte Rio	Build retaining walls on both sides of highway
3	116	0.8 miles west of Monte Rio	Build retaining wall on uphill side of highway
4	116	0.6 miles east of Duncans Mills	Build retaining wall on uphill side of highway
5	116	0.6 miles west of Duncans Mills	Reinforce unstable slope on river side of highway
6	1	In Jenner	Reinforce unstable slope on river side of highway
7	1	In Bodega Bay	Build retaining wall on uphill side of highway

Some projects will run concurrently and may affect the traveling convenience of residents, businesses and visitors.

Construction schedules are still being confirmed and are estimated below.

		2006									
Site	Route	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
1	116										
2	116										
3	116										
4	116										
5	116										
6	1										
7	1										

Actual construction periods are subject to change.

During construction, the highway at sites 1, 2, 3 and 5 will be narrowed to a single lane controlled by traffic signals. Expect delays, especially during weekends and holidays. Please allow extra time to pass through the construction areas, consider traveling during non-peak periods, or use alternative routes.

Travel Tips

Caltrans wants you to return home safely to your families. The following tips will help you while traveling through work zones.

- Obey the posted signs and speed limits.
- Stay alert, especially at night.
- Expect the unexpected.
- Watch for workers.
- Don't pass other vehicles.
- Turn on headlights.
- Avoid distractions.
- Allow ample space between you and the car in front of you.
- Anticipate lane shifts, and merge when directed to do so.
- Be Patient!
